

SHELTER ACTIVITIES Cultivating Skills of Shelter Residents

We continue to conduct various shelter activities to equip shelter residents with skills and to release their burden waiting for the conclusion of their cases. Individual volunteer and volunteer from church come on board to support our in-house skill workshop i.e. making hand-made wallet and bag out of unused fabric.

Some residents imparted their skill in shelter activity by teaching their fellows on handcraft making, baking, and knitting.

In April 2020 we introduced new skill workshop to the residents by making non-chemical lipstick, scented soap and shampoo.
