

CENTRE FOR MIGRANT DOMESTIC WORKERS

Critical Intervention, Access to Justice, Education, and Shelter Services

OUTREACH ACTIVITIES Raising Awareness of Migrant Workers' Rights To Migrant Domestic Workers

Knowledge is the most powerful weapon we are going to have in our life.

CMDW has strongly held to this belief since the beginning of our program. Our vision for this program is to not only assist the MDWs who come to seek for our assistance and advice, but also to approach all MDWs in Hong Kong and to provide knowledge/education material about their rights and other information while working in Hong Kong.

Since 2014, CMDW has continued to do programmes and activities to reach out to MDWs from different nationalities. In 2019 alone, we had reached to 6980 MDWs during our outreach in parks, MDWs community, churches and through “Welcoming Programme”, briefing for new Indonesian MDWs who are first come to Hong Kong, which held by The Consulate General Republic of Indonesia in Hong Kong.

With the funding support from the Italian Woman Association, in October 2019 we printed our informational booklet in Indonesian language, “Informasi Panduan untuk Pekerja Migran di Hong Kong”.

During our outreach events, we distributed the booklets and also books from Labour Department Hong Kong

“the A Concise Guide to the Employment Ordinance or Practical Guide for Employment of Foreign Domestic Helpers” to the MDWs.
